PROFESSIONAL SUMMARY

Creative and detail-oriented IT graduate from Silpakorn University, passionate about Frontend Development and UX/UI Design. Proven ability to design and build end-to-end web projects from concept to deployment as demonstrated through a personal portfolio and hands-on project experience. A strong communicator and collaborative team player who enjoys solving who enjoys solving problems through thoughtful design and clean code.

EDUCATION

Silpakorn University, Sanam Chandra Palace Campus, Nakhon Pathom, Thailand

May 2026

Bachelor of Science in Information Technology (Second-Class Honors)

Related Coursework: UX/UI Design , Database , Frontend , Backend , Computer Programming

GPA: 3.24/4.00

PROJECT EXPERIENCE

Dhammakaya Foundation, Pathum Thani

April 2026 - Present

Web Developer | FD-net Callcenter 4141 – Information Service Portal

- Developed responsive web interfaces and portal features using PHP, HTML, CSS, and Vanilla JavaScript
- Designed UI/UX workflows for IT service requests, FAQs, manuals, and internal information services
- Implemented client-side search, interactive accordion components, and image lightbox functionality
- Collaborated on integrating reusable components and maintaining a multi-page web portal architecture

Senior Project ,Silpakorn University

July 2025 – April 2026

Frontend | CoOpSystem – Cooperative Education Management System

- Developed a role-based SPA with Vue 3, Vite, and JavaScript, supporting 6 user roles (Student, Coordinate Teacher, Supervisor Teacher, General Personnel, Company, and Admin) via RBAC
- Integrated RESTful APIs built with Go/Gin using Axios, with JWT authentication to control role specific access across the application
- Designed responsive UI/UX covering the full internship lifecycle job browsing, applications, form tracking, and document management for all 6 roles
- Built core modules for job announcements, applications, form submissions, and document uploads, connected to a PostgreSQL database via Docker-containerized services using Docker Compose
- Deployed frontend on Vercel with branch-based CI/CD (auto-deploy on production) and backend on Google Cloud via Cloud Build

UX/UI Design | SU E-LIBRARY

July 2021 – October 2021

- Designed a mobile library application in Figma with features including book search, borrowing/return, loan tracking, notifications, and librarian chat.
- Conducted user interviews and designed wireframes and prototypes based on user requirements.
- Improved the UI/UX through usability testing and iterative design based on user feedback.

RELEVANT EXPERIENCE

Dhammakaya Foundation, Pathum Thani

April 2026 - Present

Application Support

- Provided first-line support for internal web applications and systems, resolving user issues on-site and via Line
- Managed Active Directory accounts (creation, password resets, renewals, expiry issues) to ensure uninterrupted access to applications and internet services
- Monitored servers and network infrastructure, escalating and coordinating with relevant teams to resolve issues promptly
- Designed, developed, and deployed the Comtrain Center certificate web application end-to-end (UI/UX, front-end, back-end, admin panel), enabling training course participants to download certificates online right after completion
- Contributed to the FD-net Callcenter 4141 web portal, improving access to internal information and user experience

TECHNICAL SKILLS

- **Programming Languages:** Java, C, SQL, Go, JavaScript, PHP, Python
- **Frontend:** HTML, CSS, Vue.js, React.js, Bootstrap, Tailwind CSS
- **Backend:** Node.js, Express.js, Go (Gin), RESTful API
- **Database:** PostgreSQL, MySQL
- **Tools & Technologies:** Git, GitHub, Docker, Vite, Postman, Figma
