PROFESSIONAL SUMMARY

Information Technology student with experience in UI/UX design and full-stack web development using Figma, React, Vue, Vite, JavaScript, Go, and PostgreSQL. Passionate about building scalable web applications and continuously learning modern technologies.

EDUCATION

Silpakorn University, Sanam Chandra Palace Campus, Nakhon Pathom, Thailand

May 2026

Bachelor of Science in Information Technology (Second-Class Honors)

Related Coursework: Human Computer Interaction and User Experience Design, Database System Administration, Client-Side Web Programming, Server-Side Web Programming

GPA: 3.24/4.00

PROJECT EXPERIENCE

Senior Project, Silpakorn University

July 2025 – April 2026

Frontend | CoOpSystem – Cooperative Education Management System

- Built a role-based SPA using Vue 3, Vite, and JavaScript supporting 4 user roles (Student, Teacher, Company, Admin)
- Consumed RESTful APIs built with Go/Gin using Axios, including JWT-based authentication flows
- Designed responsive UI/UX workflows for students, teachers, companies, and administrators across the full internship lifecycle
- Integrated file upload and document management features connected to a PostgreSQL backend via Docker-based services
- Deployed frontend on Vercel with branch-based CI/CD (production branch auto-deploy)

Dhammakaya Foundation, Pathum Thani

April 2026 – Present

Web Developer | FD-net Callcenter 4141 – Information Service Portal

- Developed responsive web interfaces and portal features using PHP, HTML, CSS, and Vanilla JavaScript
- Designed UI/UX workflows for IT service requests, FAQs, manuals, and internal information services
- Implemented client-side search, interactive accordion components, and image lightbox functionality
- Collaborated on integrating reusable components and maintaining a multi-page web portal architecture

RELEVANT EXPERIENCE

Dhammakaya Foundation, Pathum Thani

April 2026 – May 2026

IT Support

- Provided IT support for internal internet and information service systems
- Assisted users with account management, password resets, domain access, and network services
- Troubleshoot technical and connectivity issues for internal users
- Supported users through on-site assistance and online communication channels
- Participated in developing the new FD-net Callcenter 4141 web portal to improve information accessibility and user experience

TECHNICAL SKILLS

Programming Languages: Java, C, SQL, Golang, JavaScript, PHP

Frontend Technologies: HTML, CSS, Vue.js, React.js

Database: PostgreSQL, MySQL

Tools & DevOps: Git, GitHub, Docker, Vite
